

CRANEium

Sponsor an elementary class today and inspire a love for the outdoors!

CRANEium is a subscription designed to inspire children (ages 5-10) to learn more about the outdoors, providing them something to look forward to each month with a newly featured animal.

Every month students receive a personal envelope containing...

“Something to learn”

BOBCAT

Hi, my name is Betty the bobcat! Nice to meet you! I enjoy eating rodents, as well as other small animals like birds and reptiles, which makes me a carnivore. I love my home in North America! My relatives and I live prefer to live in wooded areas, but we can also be spotted in fields and sometimes we even roam through neighborhoods near open space. Can you imagine walking around 6 miles a day looking for food? That's what I do. In the summer I usually hunt at night, but I'll look for food during the day in winter. Whenever the rodents are active, so am I! You can identify me by my light brown fur and a white underbelly, as well as a black-tipped tail. Did you know that I got my name because of my short "bobbed" tail? I'm over twice the size of a common house cat and my roar can sound similar to a mountain lion, so while I might look cute, admire me from a distance! Well, it's time for me to start looking for a tasty mouse. Bye!
